

## **Clean Water Environmental Completes First Phase of Major Upgrade**

*September 7, 2021*

Hunting Dog Capital is pleased to announce the completion of the first phase of the upgrade and expansion program for its portfolio company, Clean Water Environmental ([www.cleanwaterenv.com](http://www.cleanwaterenv.com)). Headquartered in Dayton, Ohio, Clean Water Environmental, LLC, is an environmentally-friendly and a technologically-advanced, leading processor of hazardous and non-hazardous industrial wastewaters and recycler of oil and recalled airbag inflators.

“With the successful installation of additional equipment, Clean Water now has the capability to process not only additional waste streams at a significantly improved margin, but also simultaneously reduce operating expenses,” according to John Staton, Clean Water’s CEO. “We are seeing strong interest in our enhanced service offering and are pleased to provide a timely alternative to less environmentally-sustainable solutions, such as landfills.”

### **About Hunting Dog Capital**

Hunting Dog Capital ([www.hdcap.com](http://www.hdcap.com)) is a San Francisco-based investment manager that specializes in providing growth capital, primarily in the form of senior-secured term loans, to lower, middle market US companies. Hunting Dog Capital’s principals have worked together since 2002 and have extensive transaction experience that includes private debt, investment banking, corporate finance and restructurings.
